

Global Segment Manager – Medical (PVD technology)

For our Medical Segment we are looking for a highly motivated individual and driven leader who likes to give his or her career an international boost. This role is a unique chance to shape the future of our organization by leading the development and growth of a critical segment through technology innovation and strategic market expansion. As a Global Segment Manager, you enjoy the strategic side to investigate how technology and markets are developing, but also to be the go-to person for any practical solutions needed anywhere in the worldwide Ionbond network. If a new development is to be rolled out, we rely on your expertise to do this worldwide and to ensure the related patent processes are followed.

Ionbond – The Surface Engineers™

Ionbond provides advanced coating solutions for applications in the aerospace, medical, food contact, automotive, decorative, tooling and fuel cells industries. We offer a broad range of hard, low-friction, wear-resistant coatings based on PVD, PACVD and CVD technologies.

With 34 job coating centers in 15 countries in Europe, North America, and Asia, Ionbond has one of the largest coating networks in the world. Ionbond is part of renowned Japanese industrial consortium IHI Group.

What defines this job?

As Global Segment Manager, you are part of the extended Management Team and report directly to the CTO. Your responsibilities include:

- Crafting and executing a comprehensive 3-year roadmap, focusing on sub-segmentation, market development, and collaborating on coating center specifications.
- Leading and managing the competence centre, based in Dulliken, Switzerland.
- Give direction to (virtual) project teams and engineers around the world. This includes but is not limited to making investment proposals, implementing marketing strategies and creating new coating solutions.
- Communicating with the market and our customers regarding the latest developments to grow market share.
- Acting as the primary contact for patent processes related to the Medical Segment.

What do we ask?

You are a shoulder-to-shoulder leader with a clear and creative vision where you combine technical and market know-how with practical solutions. You have a proven track record of a customer focus approach in your daily work. Your good communication skills enable you to give clear messages with the right audience in mind whilst using all available communication tools. You have earned a Master's degree in a relevant engineering discipline. A Ph.D. in materials science or vacuum-deposited coatings is preferred and an MBA is a plus. You can express yourself fluently in English (in writing and speaking) and you are willing to conduct business travel globally.

What do we offer?

Our employees are our single most valuable assets! When you join Ionbond, you will follow a structured onboarding program. We offer you a place to work with international and local growth opportunities. Next to that:

- We will take you out of your comfort zone and provide you a technology and customer driven work environment.
- We facilitate life long learning.
- We give you the opportunity to travel the world.
- You will be part of a tight knit team of Segment Managers with a flat hierarchy.
- You have growth opportunities to executive level.
- We offer a competitive compensation package.
- You can combine home and work by a flexible office setting.
- You get a job based in Dulliken, Switzerland. For the right candidate we are open to consider another location.
