

Maintenance Technician – Rockaway, NJ

Join our team at Ionbond's Rockaway Coating Center as a Maintenance Technician, where your troubleshooting skills will shine! If you thrive on diagnosing and resolving machine failures to keep operations running smoothly, this role is perfect for you. At Ionbond, you'll have a supportive network of peers, including those at other locations, giving you the chance to make this role uniquely yours and develop your specialization.

Experience with vacuum technology is a plus, but we're happy to train you if needed. All we ask is that you bring a solid understanding of electrical and mechanical engineering and a strong willingness to learn. A great team spirit and a commitment to preventative maintenance are essential. Reporting directly to the Plant Manager, you'll play a key role in our facility's success. We look forward to receiving your application and welcoming you to our team!

Ionbond – The Surface Engineers™

Ionbond is a global, yet local acting, company where we work in a technical innovative environment. Our employees make a difference for companies in medical, automotive, aerospace and decorative industries with providing thin-film coating services. We operate over 30 coating centers in 15 countries over 3 continents. Our coatings are used to improve durability, quality, functionality, efficiency and aesthetics of tools and components. Ionbond is a global leader in PVD, CVD and PACVD coating technologies.

What defines this job?
