

## Video presentation – Short Explanation

All on-site poster presenters are asked to make use of electronic presentations and to provide a video presentation of their poster. Your pre-recorded and provided presentation will offer attendees the possibility of viewing your work during and after the conference. The visibility of the poster presentations also outside the poster sessions should thus be extended. Furthermore, the value of a poster presentation is increased. This is an excellent opportunity to make the presentation more personal and attractive for the participants.

### Short steps to come to a video:

1. Please prepare your Poster presentation as a PowerPoint slide (approx. 4-5 slides).
2. Please record your created slide presentation as a video in advance of the event.
3. You should record your presentation with sound and if possible, a picture-in-picture inset of you speaking.
4. You may use virtual laser pointers or highlight text passages to draw attention to certain areas of your slide while you speak.

Each video presentation should not be longer than 5 min. Please prepare your presentation accordingly to strictly adhere to these time limits. Presentations longer than this limit will be truncated.

<b>Your produced video should meet the following criteria:</b> Resolution	1920 x 1080 pixels (Full HD, 1080p)
Size	maximum 1 GB
File format	*.mp4
Length/Time	5 minutes (max.)
Language	English
